CARTRIDGE

LEADING EDGE TECHNOLOGY

Our Sunrunner series of highly effective cartridge filters will clean your pool down to 20 microns. Our compact design, along with maximum filtering capability, will reduce maintenance time needed and make your pool pad look sharp! Sunrunner's advantage is our superior design - maximum hydraulic flow working in unison with the filter element for efficient performance.

- Corrosion resistant, reinforced thermoplastic tank for maximum durability & long-life
- Maintenance is ultra-fast! Quick-lock seal and large drain plug provide easy access
- Multiple sizes to fit your family's needs!
